

## LITERATURE COORDINATOR REPORT – May 2010 Spring Convention/Assembly

From April through June, the sample chapter on the WSO website is *From Survival to Recovery* (B-21). Take a look and you will find meeting topics and questions for discussion for meetings. This book is also the focus of the CAL Corner in the May edition of *The Forum*. It is also a good way to introduce another piece of CAL into your meetings. Also, pick up a piece of CAL you have not read in awhile. It sometimes feels like I have never read it before!!!

If you have found new and interesting ways to use CAL in your meetings or days of sharing, please let me know. I can send them to the WSO and share with other groups. New ideas will revitalize your groups. An “Idea” sheet from WSO is located on the NYN website with this report.

Consider sharing your experience, strength and hope by submitting to the *The Forum* or other CAL literature projects when requests are made by the WSO. Sharing sheets are available on the WSO website.

Lastly, the new book currently titled “Tracing our Growth” is currently in process. Over 200 sharings have been received and will be reviewed to determine what sharings will be in this new book. The hope is that the book will be ready by April 2011 – the 60<sup>th</sup> anniversary of Al-Anon and available at the 2011 World Service Conference.

Yours in Al-Anon service,

Jean W.
