

Website Coordinator

Since the Spring Assembly, I've had 46 contact messages from the website, mostly for meeting information, which I answer promptly, even when they're for Brooklyn meetings.

This is a most enjoyable task, and whenever I give up this position I will miss it. I also enjoy any contacts with the Officers and Coordinators, or my "tech assistant", who keeps me from falling on my face. I'm a little like Charley McCarthy, sitting on Edgar Bergens lap. I don't have to have the knowledge to manage the website, since my assistant is the expert.

When I receive reports from officers and coordinators to post on the website, I forward them to my assistant, who posts them.

I maintain the Events Calendar, which involves following an instruction sheet step-by-step. It's easy.

Writing for Northern Hi Lights, and writing reports, has been a pleasure, something I couldn't say before Al-Anon. All that stuff I've learned at meetings over the years, I can now share in print.

If someone steps forward to take this position, I will be grateful, because I believe in service rotation. If no one does, I'll be happy to carry on in this position, which I love.

John O.
