

Newsletter Editors Report

Since the September 2015 Assembly, I have published 7 issues of *Northern Hi Lights*. I mailed 46 hard copies of the latest issue. I enjoy printing and mailing them, at a cost of \$1 each, which covers my expense, and keeps it simple. I've been printing and mailing them since February of 2014, and enjoy this service, which I intend to continue after my term as editor is up, unless someone else would like to do it. I have a good inventory of paid-for supplies, including printers and labels, which will make the transition easy. I bought two refurbished laser printers because the printer cartridges cost more than a refurbished, almost new, printer. I buy bulk toner to refill the toner cartridges, which cuts the cost of ink by 80%.
