

Group Records Report

I have been doing changes as I receive them. If you are interested in standing for this position next Fall that is what I do; I make changes. It also entails a bit of investigative work. The changes are to the WSO database and my records of the groups. It also involves the mass subscription to the electronic copies of the Northern HiLites and keeping a list of the hard copy subscriptions for the NYN newsletter for the newsletter editor. I also maintain, with the delegate the list of District representatives and the current list of the officers and coordinators for NYN. I have been working with Molly to help get the information of group changes to the appropriate AIS offices and or schedule printers but I have not gotten that completely worked out yet. Progress not perfection.

As of the last AWSC (Area World Service Committee) there was a question as to when WSO would place a group in the status of **Reported Not Meeting**. I have checked into it and it will happen after WSO Group Records has tried to contact the group at the time the event happens. If there is no response in a two-day period, they will place the group in this Status. This is why it is so important to keep your contacts and your group information current with the Group Records Coordinator.

Any questions?

Thanks for letting me grow through this position and to serve NYN.

Lynda S.

Group Records Coordinator
