

## Newsletter Editor Report

Since the last Assembly, I've published 7 issues of *Northern Hi Lights*, and printed and mailed 45 to 47 copies of each issue.

Printing and mailing them is not a duty of the editor, and I plan to give up doing it when my term as editor ends. I've managed to do it at a cost of \$1 each, and will have supplies, including a printer or two, that I will give to anyone willing to print and mail the newsletter. I've enjoyed doing it, but it does require that I'm home at the time of each issue, and my wife and I would like to do more travelling as long as we can, and I was reminded of rotation of service by another member. Printing and mailing costs were close to \$5.00 each when I started in January 2014, so doing it has felt like a worthwhile service, since I was saving New York North a substantial amount.
