

2018 Area Archives

Since I have taken this position I am learning the ropes. I am being helped along by some wonderful members. I met at Kevin's where the archive documents and files are currently located. I am trying to get into a routine of checking emails and going through some of the archives in order to keep a consistency and organization. I would like to do a occasional sharing of "does anyone remember this? " In the northern highlights.

I believe as I get more comfortable with this position I will have much more to report on. Until next time stay tuned.

Yours in service,
Susan J
