

NYN Web Committee Report

Fall Assembly 2021

It's been a slow start, but I am now inspired to add my influence to the NYN website. We had a committee meeting and started talking about redesigning the website that was created in 2001. It will be a challenge, but I'm ready!

Please check out the information on the website that pertains to your position. Is it up to date? If you have any ideas, questions, concerns, or updates please let me know.

We did make the decision to start using Google drive to store NYN records. We anticipate a private spot for each officer/coordinator, along with a place to easily share reports. I think this will eliminate many pieces of paper!

I have also started adding events to the calendar. There is a small glitch with our calendar – you can only see the current month to start out. I have added a link (located above the calendar) to be able to see additional months on the page (**To view additional months, [click here](#)**) You are welcome to send me your events (web@nynafg.com)

Peace –

Ellen V
