

Updated Report March 12, 2022

AAPP

This is a busy time of the year for AAPP with Amias and Alateen Group recertification.

52 Amias recertification letters with a cover letter were mailed out January 13, 2022. At this time 41 have responded. There have been 6 declines.

Have 2 new certified Amias and and 2 Al-Anon working toward certification.

Another reminder has been sent to the non-responders.

The WSO sent out the Alateen Group Recertification forms and I have received 5 of the 16

at this time. The WSO mails the recertification forms to the CMA of each group who should review and correct or make any necessary changes and then mail it to me. The forms are reviewed for changes and I then electronically submit them to WSO.

I have participated with a group zoom for Alateen training modules and have done individual zoom reviews of the Alateen training modules.

There is 1 question I would like to take to conference:

1. Can Amias recertification or new applicant for Amias certification documents be emailed.

Respectfully Submitted,

Mary Doss
