

## Web Coordinator report for NYN Spring Assembly 2022

The website is a constant work in progress!

We have changed over the way we handle the newsletter subscriptions and distribution. We now are using the Mailerlite program. As with everything there is a learning curve, thank you for your patience while we work our way through it!

I answer the few “contact us” questions that come into the website.

I have been working with Maria in Archives to help get our old documents digitized and organized online.

I update meetings, forms and other information as people contact me with requests.

I work with our Web master, Kathi D to keep the website updated. I keep learning something new every time we talk!

Gratefully in service,

Ellen V
