

## Report AAPP 2023 FALL (September) AWSC

This season continues to be uneventful.

Currently there is one person nearing completion of requirements to be certified as an Amias.

There are 11(eleven) active alateen groups and 14 (fourteen) inactive groups.

44 recertified amias and 4 new certified amias (48 total).

Have continued to participate in committee meetings, do articles for the Northern Hi Lights, stay in contact with Alateen Coordinator Mary S., and assist amias and other interested al-anon with the alateen training modules.

One needs to be familiar wth the alateen guidelines.

This service position is sometimes quite busy in the spring but once a routine is developed it flows quite smoothly. There were several changes made by WSO that have helped improve the process. I have appreciated the support and camaraderie experienced in this service position. And wish the same for the new AAPP.

Respectfully submitted,

Mary D.
