To the NYN Archives Task Force members who performed hours and hours of service reviewing hundreds and hundreds of documents, organizing documents, redacting documents, and scanning documents

To the past NYN members who had the foresight to save and preserve the 24 boxes of materials

To the past NYN members for their hours and hours of service placing documents in plastic sleeves for preservation, labeling hundreds of manila folders and storing the collection safely in boxes

To the NYN members who designed a website where documents could be uploaded easily

For all NYN members who answered questions and helped in any way

For my partner, Gene, who put up with all the boxes and stepping (tripping?) over things for three years

Everything in all of the boxes has been looked at and approximately six boxes (reduced from 24) and two flash drives will pass to the next Archives Coordinator.
