Our October issue will have a different focus from years before. The Fellowship Communication Action Committee asked everyone share about how the Forum has aided their recovery.

At the AWSC meeting in the fall, an Ad Hoc Committee was formed to look at the Northern Hi Lights cost, mode of delivery and the possibility of going electronic. I have spent time this month:

- Communicating with committee members
  - Communicating with New & Views Editor from Montana
  - Getting as much information to the committee as I get the information.
- Our first meeting will be Friday night at 7pm at the Fall Assembly

I thank you for the opportunity to serve our Area as Newsletter Editor!
