

## **2023 Spring Assembly May 20<sup>th</sup>**

### **Chairperson Report**

The AWSC in March 2022 approved a motion for a task force to review and update the NYN Area Expense Guidelines as they pertain to Equipment and Operating Expenses. A task force was formed but before the group was able to fully consider the issue and make recommendations, the Assembly in September 2022 approved to increase the budget line item for equipment from \$500 to \$1500 and further stipulated to “delegate the decision for purchasing equipment to the collective decision of the Officers and Coordinators at their monthly meeting up to the limit of the approved budget for equipment.”

The task force concluded that the issue has been resolved by the assembly and the business of the task force is completed.
