## New York North Group Records Report.

Hello all from record central. With almost six months under my belt I am getting the hang of this job. It is really not that hard just have to stay with it when the changes come in and remember to get the labels out for the newsletter every month.

There are a couple of things that everyone needs to know.

1. There are two emails that you can send me changes: [removed] and also at [records@nynafg.com](mailto:records@nynafg.com) .
2. I have moved and am still getting mail from the old address at [removed] If you send me changes by snail mail please send them to the new address: [removed].

Dr's when sending me change for your districts please only send the information for the groups that have changes. Please remember to include the group number.

While working with the labels for the News letter I have noticed that a lot of the groups are not current with the subscription renewals. If your group can afford the subscription cost please help support NYN by sending it in. You can see on the Hi Lights label your date 11Dec would be Dec 2011 expiration date. If your group is unable to help we will still mail you the Hi Lights we want everyone to be informed.

As always KISS  
Keep it simply simple

George S
